

Summarix

Your solution for structured and centralized business data

CHALLENGES

- **Incomplete Documentation:** Project and employee-related information is often not fully documented, reducing data accuracy and traceability.
- **Decentralized Data Storage:** Information is spread across various systems and departments, making it difficult to locate and access efficiently.
- **High Time Investment & Inefficiency:** Searching for and maintaining data leads to inefficient processes, duplicated efforts, and significant time loss—especially for billable employees.

OUR SOLUTION

- **Centralized & Intuitive Management:** Summarix offers a cloud-based platform on SAP BTP for structured management of skills, best practices, assignments, and projects.
- **Automation & AI Empowerment:** Intelligent forms, an AI-powered chatbot (Summy), and integrated PDF generation significantly reduce documentation effort and streamline presentation.

TOP BENEFITS

- **Central & Unlimited:** data storage for all your employee and project data
- **Seamless SAP Integration:** Summarix adapts flexibly to your system
- **Intuitive Dashboards:** Responsive, user-friendly data visualization.
- **AI:** Powered by cutting-edge AI technologies
